48 I agree with the Jt Secy that it is not desirable in principle for Govt to bear the entire cost of the buildings. The Municipal Council should bear at least half the cost. The Municipal contribution has been raised to meet the increased recurring cost. The expenditure may be spread over a period of 5 years.

49 May be considered at a meeting of Council.

Decision thereon Jt Secy Edn 6/4/17 7/4

50 The question of elementary school buildings in the two cities — Bangalore & Mysore — is an important one which deserves the sympathetic consideration of Govt. The health of a large number of children is involved.

NOTE—Contn sheet

G R S III 2)

General and Revenue Secretariat | Gov= File No 576 of 1913

Serial No

51 The liberal grant for village school buildings (one to one and a half lakhs) is not available for the purpose Difficulties are raised in the matter of obtaining annual provision in the P W budget for educational buildings. How then are we to have decent elementary school buildings in the cities? If the responsibility is thrown wholly or to a great extent on the Municipalities, I am not sanguine of much improvement in the matter at an early date

52 For Mysore the amount required is Rs 30 000 We may distribute the expenditure over two years 3/4 ths being given by Govt out of the 2 lakhs grant in the P W budget & 1/4 th being contributed by the Municipality. A definite order to this effect may issue.

53 For Bangalore City a comprehensive programme of elementary school buildings may be called for from the DI An order may then issue for carrying out the programme in 2 or 3 years the financing arrangements being similar to that proposed for Mysore city above
